

TouchIT Wall Mount - 42" & 55"

TOMORROW'S TOUCH-BASED TECHNOLOGY, TODAY...

### Product Specifications

LCD Size Range: 26" - 55"

Weight Capacity: 99 lbs.

Distance From Wall: 1-1/2" (Low Profile)

VESA Compatible: Universal from 100mm x

100mm to 600mm x 400mm

Color: Black

The TouchIT LCD Mount has an ultra slim profile that protrudes only 1-1/2" from a wall without the LCD. The TouchIT LCD mounts offer a sleek way to mount your TouchIT LCD onto a wall.

We include the necessary screws to attach the TouchIT LCDs to this mount. The mount is VESA compatible for 100mm x 100mm to 600mm x 400mm. VESA standards are agreed upon between manufacturers of mounts and brands so that mounting holes on televisions, LCDs and plasmas are the same across all brands.

The TouchIT Mount allows you to tilt your LCD down up to 12°. Titring your LCD allows you to provide a better viewing angle. The TouchIT Mount also includes a locking mechanism on the bottom of each arm that helps to hold the mounting arms onto the bracket. An included level helps with installation onto wood studs and solid concrete walls. If you have any questions regarding installation on your wall type, please consult a professional.
